MESSAGE FROM THE MAYOR

Dear Forest Heights Neighbors,

This month, we mark the close of winter and look toward new beginnings in spring. We usher in the new season with a recently completed **tree installation project** that will make the Town more resilient against weather and climate effects. The Town collaborated with Prince George's County Department of Environment, which covered the cost of the trees (more than \$400,000) and installation through a grant. Let me answer some questions about the project that residents may have:

- The primary purpose of the trees is to reduce the amount of stormwater runoff affecting the Town.
- Each new tree will retain gallons of water during rainstorms, which helps naturally minimize flooding.
- The County will maintain and warranty each tree for two years, and the Town will be responsible for maintenance afterward.
- Arborists conducted a tree inventory and recommended the right tree for each location to prevent root damage or utility interference.
- Each tree is identified on a map and geotagged to simplify tracking and maintenance.

We planted trees in the Town's public right-of-way, or the easement, the land directly next to the curb on each residential lot. Residents will not be responsible for maintaining trees planted for this project. The Town Council and I want to protect our community's health and sustainability, and this effort addressed environmental challenges facing Forest Heights today and in the future.

We are proud to celebrate **Women's History Month** in March. This tradition began in 1987 after the National Women's History Project and other groups discovered that only about 3% of historical texts mentioned achievements by women. This year, we recognize two women. Justice Kentanji Brown Jackson is the first Black woman appointed to the Supreme Court. Justice Jackson joined the Court in 2022 and is the first former public defender to serve on the bench. Dr. Antonia Novello is the first woman and Latina to serve as U.S. Surgeon General. She was appointed in 1990 and launched an antismoking campaign for children before serving as a United Nations Children's Fund representative.

As we work to strengthen Youth and Community Engagement, I'm highlighting several upcoming dates you don't want to miss.

Calling all Forest Heights youth 10 to 18 years old! You're invited to:

- **Future Flow Vision Board Fest on Saturday, March 16, 1 PM** at the Municipal Building

Map out your plans for 2024 and beyond, and share your ideas for youth activities in Forest Heights. We'll provide food and music. Councilmember Shaneese Little (Ward I) and I will host. Parents, see the flyer in Youth Updates to register your child.

MESSAGE FROM THE MAYOR (cont'd)

Finally, we're excited to invite you for a weekend of events April 19-21 to commemorate our 75th anniversary of Forest Heights. Here are the three events where you can join us:

- **75th Incorporation Day Ceremony on Friday, April 19, 6PM - 8PM**, at the Community Gathering Place (next to Henry's Soul Cafe)
- **75th Anniversary Reunion on Saturday, April 20, 2PM - 4PM**, at the Municipal Building
- **75th Anniversary Gala on Sunday, April 21, 4PM - 8PM**, at Harborside Hotel (tickets are \$30)

The Incorporation Day and Reunion events are free to residents and the public. Our Anniversary Gala is a formal event, and numerous community businesses have sponsored it to keep the ticket price as affordable as possible for residents. Come celebrate and bring your family and past neighbors. Find all the details on the flyers in this newsletter.

Yours In Service,
Troy Barrington Lilly
Mayor

Free Home Solar Power In Maryland

By [Jake Richardson](#) Dec 2023

Sign up for [daily news updates from CleanTechnica](#) on email. Or [follow us on Google News!](#)

In the United States, there are some people who have less financial means and therefore have reduced access to technology. Around the year 2000, the term “digital divide” was floating around to reference this gap. For consumers today, there is something of a clean energy divide, in that home solar power is not affordable for every homeowner. Fortunately, there are some government programs that provide support to homeowners to solve this problem. The state of Maryland offers such financial support so people with less money can still have a chance to own and benefit from having their own home solar power.

The non-profit organization and Maryland Energy Administration (MEA) grantee [Building Change](#) and SunPower answered some questions about the Maryland home solar power program for *CleanTechnica*.

Are the systems free to Maryland residents? How many will be installed?

The Maryland Energy Administration (MEA) will fund 100% of the solar system design and installation up to \$25,000 per home. Costs may include funding for roof repair/replacement in the vicinity of the solar array, structural support of the roof, and mold remediation in areas needed to support the installation of the solar array and supporting equipment.

In 2022, MEA awarded around \$1.5 M in these solar grants and awarded upwards of \$3 M in 2023.

Including both the FY22 and FY23 programs, MEA will have funded a total of 240 individual home system installations.

How can Maryland low-income residents apply to get a free home solar power system, and what qualifies as low-income?

A homeowner must qualify in the Low Income Category established by the Maryland Department of Housing and Community Development (DHCD). The program defines “low income” as household income that is at or below 175% of the federal poverty level. If a homeowner meets the criteria, they are initially eligible. Inspections of the home related to roof condition or other faults are required and evaluated to ensure a system can be installed.

Eligible households must already have received an energy audit through the MEA Energy Efficiency Equity (EEE) program, as well as “significant” energy efficiency upgrades. Residents apply through non-profit partners who receive grants from MEA such as Building Change.

Once the home solar power system has been installed, approximately how much can a homeowner expect to save on their monthly power bill?

Savings depends on the size of the home and solar system, as well as a household’s current energy usage.

Nationwide, SunPower customers can save an average of \$213/month on their electric bills depending on their utility and where they live.

Will the home solar installation replace or partially replace grid energy or energy sourced from fossil fuels?

Our warming planet is putting new pressures on the grid. Heatwaves, wildfires, and storms are making it challenging to deliver the reliable, consistent energy we need to power our daily lives. With solar, we’re creating a scalable way to take load off the grid while enabling homeowners to save on their energy bills.

CODE ENFORCEMENT

DO I NEED A PERMIT TO EXTEND MY DRIVEWAY?

Prior to any installation, modification or extension to an driveway proper authorization must be given through Prince George's County and the Town of Forest Heights. You must first submit an applicant to the Department o Permitting, Inspection and Enforcement. With each application you are required to submit a copy of the Site Plot Plan showing driveway location with dimensions. These drawings will be reviewed by Maryland-National Capital Park and Planning Commission, Department o Permitting, Inspections and Enforcement, and a Structural Engineer.

Once approval is obtained through the Prince George sCounty, you must bring a copy of the County permit, a copy of the red stamped approved drawings and proof of payment for the County permit to the Town's Code Enforcement Unit to be submitted with your completed application for a Town permit.

All approvals and permits must be obtained prior to the Initiation of any work

If you have not followed the above steps specifically, your driveway may be UNAUTHORIZED and deemed ILLEGAL.

CAN I PARK ANYWHERE ON MY PROPERTY?

What constitutes a legal parking area on private property? This question has been a major topic for several years in the Town. In effort to bring clarity and insight community interaction and dialogue, the following information is here for you:

Section 15.3.2(A) of the Town Ordinance Code titled, **"Off-street parking limited to driveways."**

Parking on driveways and other surfaced parking areas is limited to the area and dimensions depicted on the county permit, any approved site plan for the subject property, and any Town of Forest Heights required permit. Unless the Prince George's County Code states otherwise, an additional paved or surfaced area not to exceed 500 square feet is allowed by the Town to be placed on a lot without a permit issued by the town that additional paved or surfaced area as permitted herein shall not be used for parking vehicles.

PARKING IN THE TOWN

The Code Enforcement Unit and the Forest Heights Police Department has increased their awareness of unregistered, unregistered, abandoned and/or inoperable vehicles as well as out of state license plates that have been parked in the same vicinity for more than 60 days. Maryland state law requires residence that have moved from out of state to register their vehicles in the state of Maryland within 60 days. This is a major focus of our Town officials.

www.ForestHeightsMDPermitLicense.Portal.iworq.net

For more information, contact the Code Enforcement Unit (301) 477-8715 or CodeEnforcement@ForestHeightsMD.gov

To view the Town Ordinance Code in its entirety, navigate to <https://forestheightsmd.gov/879/Town-Ordinance>
